MK-III (1.9 oz.)
Duty Belt Presidia Gel

UPC 852617008579

Net Weight 1.9 oz. / 56 ml

Formula 2% Chlorobenzalmalononitrile (CS), inert accelerants

Spray Pattern Gel stream

Range Up to 15 ft.

Other UV Dye, BOV 360

EXTREME STOPPING POWER Immediate involuntary eye closure and disorientation incapacitates a violent subject upon contact.

CLEAN UP Shockingly effective Reflex Remove® decontaminant neutralizes Presidia Gel® and provides relief from chemical agent symptoms within 2 minutes, compared to 15 minutes for competing products. Clean up is easy and fast for both people and surfaces. LE in Ohio call it “pure gold.”

NEW PROPRIETARY FORMULA Presidia Gel® is NOT pepper spray, but rather an innovative, target-specific, sticky, and rapid onset reformulation of LE-trusted CS.

STICKS TO TARGET Presidia Gel® sticks to what it hits, preventing side splatter or collateral effect; thus, officers can isolate a subject in a group without affecting bystanders. Cannot be removed by subject and thrown back at the officer.

NO CONTAMINATION Non-atomizing and non-flammable. Can be safely deployed indoors, in a vehicle, or in a crowd without affecting innocent bystanders. Safe to use with Electronic Restraint Devices (ERD).

TRAINING Certified instructor training available - see our website for details.

 **MADE IN USA**
