

# REFLEX PROTECT<sup>®</sup> TACTICAL

## MK-XX RIOT Presidia Gel

**EXTREME STOPPING POWER** Immediate involuntary eye closure and disorientation incapacitates violent subjects upon contact. More volume allows the ability to control various correction and riot scenarios.

**CLEAN UP** Shockingly effective Reflex Remove<sup>®</sup> decontaminant neutralizes Presidia Gel<sup>®</sup> and provides relief for chemical agent symptoms within 2 minutes, compared to 15 minutes for competing products. Clean up is easy and fast for both people and surfaces. LE in Ohio call it “pure gold.”

**NEW PROPRIETARY FORMULA** The product is NOT pepper spray, but rather an innovative, target-specific, sticky, and rapid onset reformulation of LE-trusted CS.

**STICKS TO TARGET** Presidia Gel<sup>®</sup> sticks to what it hits, preventing side splatter or collateral effect; thus, officers can isolate subjects in a group without affecting bystanders. Cannot be removed by subject and thrown back at the officer.

**NO CONTAMINATION** Non-atomizing and non-flammable. Can be safely deployed indoors, in a vehicle, or in a crowd without affecting innocent bystanders. Safe to use with Electronic Restraint Devices (ERDs).

MK-XX (19.4 oz.)

UPC 852617008678

Net Weight 19.4 oz

Formula 2% Chlorobenzalmalononitrile (CS), inert accelerants

Spray Pattern Gel Stream

Range 22-27 ft.

Other UV Dye
