

## MK-VI OC SPRAY (STREAM, FOAM, FOG)

**EXTREME STOPPING POWER:** When sprayed at the face, there is an inflammatory response of the eyes, nose and throat. Intense pain, temporary blindness, coughing, nose and throat irritation, and skin irritation incapacitates a violent subject for several minutes, allowing officers to gain control of the subject(s).

**TARGET ACQUISITION:** Spray unit includes technology that allows officers to deploy the unit from any angle, maximizing target acquisition.

**INTENSE HEAT LEVEL:** Red Storm Xtreme's OC formula delivers intense heat when deployed.

**LONG RANGE:** With up to a 15 foot spray range, Red Storm Xtreme, when sprayed in a circular motion towards the center of the face, allows officers to stay safe while gaining control of an aggressive and/or violent subject.

**TRAINING:** Inert stream, foam, and fog units available for training.

MK-VI (160 Grams/5.6 oz.) OC Stream Spray	
UPC	852617008784
Net Weight	160 grams/5.6 oz
Formula	Oleoresin Capsicum (OC), inert propellants
Spray Pattern	Stream
Range	Up to 15 feet
Other	UV Dye
