MK-IX (14 oz.)

UPC 852617008661

Net Weight 14 oz.

Formula 2% Chlorobenzalmalononitrile (CS), inert accelerants

Spray Pattern Gel Stream

Range 20-25 ft.

Other UV Dye

 **MADE IN USA**

EXTREME STOPPING POWER Immediate involuntary eye closure and disorientation incapacitates violent subjects upon contact. More volume allows the ability to control various correction and riot scenarios.

CLEAN UP Shockingly effective Reflex Remove[®] decontaminant neutralizes Presidia Gel[®] and provides relief for chemical agent symptoms within 2 minutes, compared to 15 minutes for competing products. Clean up is easy and fast for both people and surfaces. LE in Ohio call it “pure gold.”

NEW PROPRIETARY FORMULA The product is NOT pepper spray, but rather an innovative, target-specific, sticky, and rapid onset reformulation of LE-trusted CS.

STICKS TO TARGET Presidia Gel[®] sticks to what it hits, preventing side splatter or collateral effect; thus, officers can isolate subjects in a group without affecting bystanders. Cannot be removed by subject and thrown back at the officer.

NO CONTAMINATION Non-atomizing and non-flammable. Can be safely deployed indoors, in a vehicle, or in a crowd without affecting innocent bystanders. Safe to use with Electronic Restraint Devices (ERDs).
