

REFLEX PROTECT[®] TACTICAL

RIOT RP-76 with Presidia Gel[®] Canister

RPT Riot RP-76

UPC 852617008685

Net Weight 46 oz

Formula 2% Chorobenzalmalonitrile, inert accelerants

Spray Pattern Wide Gel Stream

Range 40 ft.

Other UV Dye

EXTREME STOPPING POWER Immediate involuntary eye closure and disorientation incapacitates violent subjects upon contact. More volume allows the ability to control various correction and riot scenarios. The RP-76 is easily refillable and rechargeable (initially comes with one Presidia Gel canister and one charged nitrogen canister).

CLEAN UP Shockingly effective Reflex Remove[®] decontaminant neutralizes Presidia Gel[®] and provides relief for chemical agent symptoms within 2 minutes, compared to 15 minutes for competing products. Clean up is easy and fast for both people and surfaces. LE in Ohio call it “pure gold.”

NEW PROPRIETARY FORMULA The product is NOT pepper spray, but rather an innovative, target-specific, sticky, and rapid onset reformulation of LE-trusted CS.

STICKS TO TARGET Presidia Gel[®] sticks to what it hits, preventing side splatter or collateral effect; thus, officers can isolate subjects in a group without affecting bystanders. Cannot be removed by subject and thrown back at the officer.

NO CONTAMINATION Non-atomizing and non-flammable. Can be safely deployed indoors, in a vehicle, or in a crowd without affecting innocent bystanders. Safe to use with Electronic Restraint Devices (ERDs).

TRAINING Certified instructor training available - see our website for details.

 **MADE IN USA**
